

Dear Parents and carers

Re School Closure due to Coronavirus COVID – 19

The Department For Education (DFE) have instructed all schools to close at the end of the day on **Friday 20th March 2020** until further notice, to limit the spread of this virus.

All the children will be given 'Home Learning' information from their class teacher on Friday, outlining the work that they could complete whilst they are away from school. This will be in the form of online learning through Google Classroom. The children all have their log ins. Google Classroom is a fantastic platform for sharing lessons, activities and having communication with pupils, whilst they are not in school.

In addition to this, many children will have home learning packs. A range of resources will be made available (with guidance) so children can still access their learning. We appreciate not all children have computers at home. Please can you inform the school office, should your child not have access to electronic devices.

We will use the school facebook page and texting service to pass on any further information as we get it. We realise that this is an extremely stressful and worrying time for everyone. Please do not let school work add to that stress.

Please use this time to read together, play games, watch films and just have fun together.

This worrying time will pass and then the children can catch up with their learning.

Please look after yourselves and each other.

Miss Sanderson
Acting Headteacher
